What a week it was! The JTA's were outside on the gates every morning, eagerly watching to see who'd managed to walk to school that day and checking the pedometers were safely secured. Daily checks with classteachers and tasked with the job of calculating the number of steps each class had walked certainly kept them on their toes this week.

We were delighted by just how many of you joined us in our competition this week, ditching the car and taking a brisk stroll into school in the morning. We do hope that you felt the benefits and noticed a reduction in the number of cars idling outside the school gates.

We are thrilled to announce the three 'top' scoring classes with a magnificent number of steps taken across the week.

Our winning Westminster will be awarded with their own pedometer to keep and enjoy tracking the number of steps they take each day.

Class	Number of steps taken
Westminster	317,490
Southwark	289,958
Kennington	236,634

Thank you for your active participation.
Please keep an eye out for our next competition.
