

BeDifferent Federation

Year 6 Homework Projects Autumn 2

ENGLISH

Can you write your own fact sheet about Sir Ernest Shackleton?

Discover his most intrepid adventures and how he became such a respected explorer.

MATHEMATICS

With global warming causing the planet's temperature to rise year on year, Scientists have suggested that it will be 5,000 years until the Earth is completely ice free.

How many months is that?

How many weeks is that?

SCIENCE

Research climate change and how rising temperatures are damaging the habitats of many species living in Antarctica.

Explore what possible solutions there might be for beginning to reverse what is happening.

ART & DESIGN

Design a collage of an Antarctic creature using different pieces of coloured paper.

COMPUTING

Write a blog pretending to be Sir Ernest Shackleton away on his expedition of Antarctica.

Would troubles may he have to overcome?

Does he think he will be successful?

HISTORY

Learn about the competition between Sir Ernest Shackleton and Roald Amundsen.

What similar mission did they wish to complete?

What helped them? What hindered them?
